Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is in response to the interview held May 17, 2005.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 38 is rejected under 35 U.S.C. 102(e) as being anticipated by Applicant's Prior Art (Figs. 2a/2b).

Applicant's Prior Art (Figs. 2a/2b) contain a substrate (1) , a gate wiring layer (3) formed on one major surface of the substrate, an insulating film (10) interposed between substrate and gate wiring layer and covering a side surface of the gate wiring layer, a pair of thin films (5) formed on one major surface of substrate and arranged on

Art Unit: 2822

two sides of the gate wiring layer, a gate sidewall (4) formed on pair of thin films covering side surface of gate wiring layer and made of an insulator wherein a region of pair of thin films between gate sidewall and substrate, a remaining region of pair of thin films (region under diffusion region 6 (area to the left of portion 5 in Fig. 2b)) on which gate sidewall is absent and a surface region of substrate in contact with remaining region contain a semiconductor and conductive impurity.

Allowable Subject Matter

Claims 30-37 are allowed.

Claim 39 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Response to Arguments

Applicant's arguments with respect to claims 38-39 have been considered but are moot in view of the new ground(s) of rejection. 112 1st rejection of claims 38 and 39 and the drawing objection have been withdrawn.
